

SaFTFlo® Dual Straw Insert

The Dual Straw Insert was designed to work with the SaFTFlo® PDU - Dual Flow and Dual Cap Adapter. It offers both a dual flow, and a dual dilution within a single insert.

The two separate flow channels enable the customer to pull two separate dilutions into either a wall dispenser or PDU from a single insert

Key Features

- Designed to work with the SaFTFlo® PDU - Dual Flow and Dual Cap Adapter
- Two separate flow channels
- Dual dilution rates
- Concentric attachment makes for easy transition when exchanging bottles
- Compatible with SaFTFlo® 38mm Cap Adapters and Ship Caps

Materials / Options

- Materials: Polypropylene / HDPE / PE Foamer Liner / Spring (Stainless steel, Hastelloy, TPV)
- Sizes: 38mm
- Standard flow rate
- For color options please contact your sales representative

For superior performance results, use the SaFTFlo® Dual Straw Insert in conjunction with our full line of liquid containment and dispensing products from the SaFTFlo® Fluid Management Systems.
