

SaFTFlo® Saftvent Insert

RD Industries are the leaders in innovative, high- quality dosing and dispensing solutions. Our new SaFTFlo® SaFTVent Bottle Insert uses SC5 Gore® technology to provide additional venting for dangerous chemicals, such as peracetic acid, hydrogen peroxide, and sodium hypochlorite (bleach).

Key Features

- Safer transportation of chemicals
- Supports optimal airflow for off-gassing chemicals
- Prevents container from bloating or collapsing due to unequalised pressure
- Offers excellent roll-off and wetting out
- Increases chemical concentration
- Provides safer chemical transportation
- Maintains packaging integrity and brand reputation
- Repels liquids with low surface tension (detergents, organics, and surfactants)
- Provides a wide range of chemical compatibility
- Integrates easily with our closed loop system

Materials / Options

- Available in the following standard flow sizes:: 38mm, 40mm, 53mm, 60mm, 63mm, 70mm
- Tube length to fit any container
- Wide range of plastics for chemical compatibility
- Spring metal: Stainless Steel or Hastelloy
- For extra protection, use with SaFTSeal technology
- For color options please contact your sales

For superior performance results, use the SaFTFlo® Saftvent Bottle Insert in conjunction with our full line of liquid containment and dispensing products from the SaFTFlo® Fluid Management Systems.
