

SaFTFlo® Single Flow Portable Dispensing Unit

Turn Any Container Into a Portable Dispenser!

RD Industries is the leader in innovative, high-quality dosing and dispensing solutions.

The SaFTFlo® Portable Dispensing Unit (PDU) is a versatile and convenient dispensing system that is an economical addition to your chemical dilution system anywhere water is available.

The PDU is connected to both a water source and a container of concentrated chemical installed with an insert, creating the closed loop system.

FLOW RATE OPTIONS			
Flow Rate	1 GPM (4 L/M)	2 GPM (8 L/M)	3.5 GPM (8 L/M)
Single Dilution	x	x	x
Dual Dilution	x	x	x
Single Dilution	x	x	x
Dual Dilution	x	x	x

Key Features

- Accurate dilution control is built into the PDU
- Fits any size container, from half-gallon bottles and 5-gallon pails to 50-gallon drums
- State-of-the-art materials withstand harsh chemicals
- Turn water on and off at the unit
- Ergonomically designed for safety and productivity with one-handed operation
- low cost compared to wall-mounted dispensers
- Installation is instant – no mounting required
- Specially designed squeeze trigger helps eliminate hand fatigue
- Creates a closed loop system
- Certified: In compliance with both the United States and Canada

Materials / Options

- Standard and medium flow rates
- Single or dual dilution
- Backflow Preventers- NPT and BSPP Thread
- Air Gap
- Materials: Polypropylene, Kynar, Stainless Steel, Hastelloy
- Bucket Clip- For bucket/bottle filling
- Foamer- For spray / foam application only for 2 GPM non-air gap
- Foamer w/ 5 foot Wand Attachment for spray /or foam application only for 2 GPM non-air gap
- Quick Connects – NPT and BSPP Thread
- Water Hose- Available in NPT only
- Shroud- For extra protection; available for single-dilution units only
- Logo printing/branding available
- For color options please contact your sales representative
