

SaFTGreen™ 'Original' SaFTFlo

The SaFTGreen™ 'Original' SaFTflo® Insert is the very first insert invented 25 years ago launching closed loop technology to the world.

Over the years, the design was improved to meet the new demands in the market. Now the "Original" is part of a new line of environmentally engineered inserts under the name SaFTGreen™.

100% recyclable and sustainably manufactured, this bottle insert is a great option as an entry-level of chemical containment - it would be great to use with household bleach.

Key Features

- More versatile than competitors due to higher designed to fit most 38mm bottles
- Provides a very basic entry-level of safety
- Provides a minimal exposure to chemicals when linked to a closed loop system
- Open 2-way venting
- Low cost
- 100% recyclable
- Sustainably manufactured
- No metal parts in assembly
- Low manufacturing impact on the environment

Materials / Options

- Key lock combinations
- Metering tip
- Additional colors are charged as an extra option
- Material: HDPE
- Size: 38mm
- For color options please contact your sales representative

For superior performance results, use the SaFTGreen™ MSV Inserts in conjunction with our full line of liquid containment and dispensing products from the SaFTFlo® Fluid Management Systems.

*Please note adding some of the options above, will reduce the ability to recycle the insert, including adding color.
