

Wall Dispenser

Safe and Secure Solution for a Fully Closed Loop Dispensing System

PATENT: 8,550,302
PATENT: 8,939,322
MADE IN THE USA

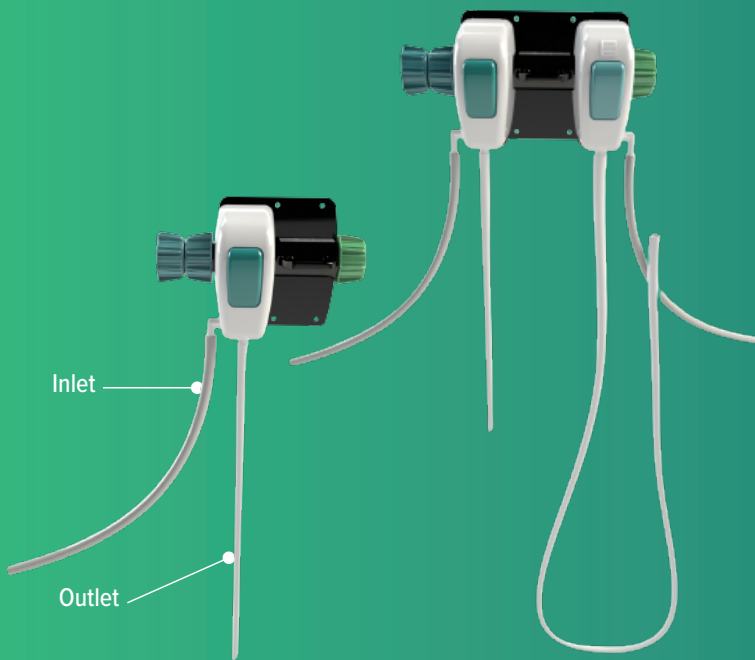

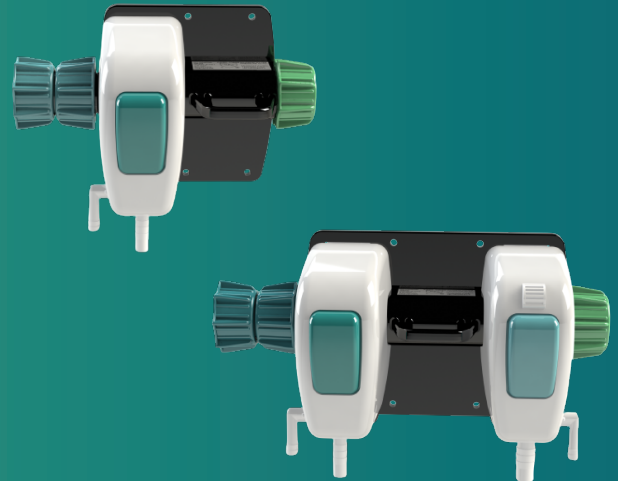

► What is it and what does it do?

The SafTFlo® Wall Mount Dispenser offers a flexible, one or two model unit with a choice of flow rates and dilution options, a fully Closed Loop dispensing system.

The one module unit works in line with a single straw insert and will pull only one dilution from the bottle. The two module unit works in line with the dual-port cap adapter, allowing two different dilutions pulled from the same chemical bottle.

The Wall Dispenser is quick and easy to install. It's also very cost effective.

► BENEFITS

- One touch operation
- Air Gap
- Custom configuration
- Certified in compliance in the United States and Canada
